REPORT OF THE SCHOOL BOARD

For the Year Ending June 30, 1927

The cost of conducting our schools seems to be increasing from year to year. Next year the School Board. in response to the demand of the citizens, will pay the salary and transportation expenses of Mrs. Annie L. Putnam, supervisor of music, amounting to a little more than $400.00. New music books for all of the schools probably will have to be purchased. Some additional increases in the salaries of our teachers will be granted and some extra transportation money may have to be paid for the transportation of elementary pupils. To cover these anticipated costs the School Board recommended at the last annual school meeting that $1,000.00 more be appropriated than was appropriated for the year just closed.

In order to reduce the burden of taxes somewhat, the School Board applied this year for state aid but was refused it principally because the State Board of Education wouldn't approve our budget with respect to transportation and fuel. Antrim school district raises enough money for support of elementary schools to entitle it to state aid and the School Board will apply again next year.

Entering classes in our village school are large lately and apparently it will be necessary to engage an assistant for Miss Buxton who has grades 1, 2 and 3. The enrollment of our High School is gaining also, and in the near future we are likely to find that our High School Building is over-crowded, especially the rooms devoted to the use of the High School.

Our High School next year will have a year of 37 weeks, one week more than the grades. This conforms to modern practice, many of the New Hampshire High Schools having from 37 to 40 weeks in their school year.

We wish to call your attention to the fact that our three rural school teachers are Normal school graduates, specially trained to teach one room rural schools.

In closing we would like to compliment the High School faculty and the High School on the admirable record that the school made this year in prize-speaking and debating.

P. S.—Since the above report was prepared for the printer, we have been advised that the Antrim School District has been given state aid for the year 1928-1929 to the extent of $132.48, and an adjustment on the year 1927-1928 of $32.78. This money will be paid in December, 1928.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Antrim, N. H., the report of the Supt. of Schools is hereby respectfully submitted, for the school year 1926—1927:

This year we had only one new teacher in the village school. The high school faculty, the same as last year, consisted of Mr. T. C. Chaffee, Headmaster, a graduate of Brown University; Miss Ernestine Strehle, Radcliffe, and Miss Katherine Paul, a Keene Normal graduate. Miss Bernice Buxton, in the primary grades, Miss Charlotte Balch in the Intermediate grades, held the same positions as last year, and Miss Barbara Peavey came as teacher of the Grammar grades from the Keene Normal School. All our rural school teachers were new this year, and all were graduates of the Keene Normal School. Miss Sarah Emerson came to the North Branch, Miss Mary Richardson to the Center, and Miss Isabel Kidston to the East Antrim School. These with Miss Edith Messer, our Drawing Supervisor, and Mrs. Annie L. Putnam, our Music Supervisor, complete our corps of Instructors.

A total of $9870 plus transportation costs for the Music Supervisor, was paid for our teachers; but the amount paid to the Music Supervisor was furnished by the Antrim Woman's Club. $2000 was paid to the Headmaster, and $1250 and $1150 to the high school assistants. $900, $850, $800 to the other village teachers, $850 to the Center School teacher, and $800 to each of the others.

Of our eleven teachers only three have the highest form of State Certification. It is expected that all teachers prepare themselves as promptly as possible for the State Certificate. This can best be done, and the teachers can best keep up to the times in their work, by attending summer school. Such attendance costs money, and I suggest that for the year following a teacher's attendance at summer school, a certain definite salary bonus be given, to encourage such attendance and to partly repay the teacher for the financial outlay. This should also keep our most desirable teachers with us for a longer period. Miss Charlotte Balch is the only one of our eleven teachers who was here as a teacher when I began my work in 1919.

The total enrollment of 198 was divided as follows:

School	Boys	Girls	Total
East	6	3	9
Center	12	4	16
North Branch	10	12	22
Village Grammar	20	11	31
Village Intermediate	22	17	39
Village Primary	16	23	39
High	18	24	42
Totals	104	94	198

By grades the enrollment was:—

1st Grade 27. 2nd Grade 13. 3rd Grade 15. 4th Grade 20. 5th grade 25. 6th Grade 15. 7th Grade 26. Grade 8, 15. Grade 9, 9. Grade 10, 15. Grade 11, 10. Grade 12, 8.

The percent of attendance varied from 82.7% at the North Branch to 99.1% at East Antrim. Our records should be much better in this respect, and from years of experience I have found that the teacher is one of the strong factors in the regularity of attendance of her pupils. Careful following up of the matter, ascertaining the reason for each case of absence, doing all possible to encourage regularity, and to discourage irregularity, and above all to actually feel that irregularity in attendance is a bad condition of affairs, will, I am sure, increase the

percentage of attendance. The record is:

East Antrim	99.1%
Intermediate	96.4%
Primary	96.0%
Grammar	95.0%
High	93.6%
Center	84.0%
North Branch	82.7%

Our tardiness record may be called fair. There were 174 cases of tardiness among our 198 pupils, less than one case per pupil, but there is a wide variation in the figures. Miss Balch's room had only one case of tardiness, for the whole year, among 39 pupils, while at the North Branch there were 76 cases among 22 pupils. This is a very bad record. I congratulate Miss Balch and her pupils, but especially Miss Balch, for her room has that excellent record largely because she feels so strongly that punctuality is a virtue which must be inculcated. Miss Buxton and her pupils should also be praised for theirs was the next best record, which is especially good, because they are the lowest grade pupils.

Miss Balch's room had	1 tardiness among 39 pupils
Miss Buxton's room had	7 tardiness among 39 pupils
High School had	27 tardiness among 42 pupils
Miss Peavey's room had	21 tardiness among 31 pupils
East School had	14 tardiness among 9 pupils
Center School had	28 tardiness among 16 pupils
North Branch School had	76 tardiness among 22 pupils

Teachers' records show 17 visits by members of the School Board, 153 by parents and friends, and 233 by the Superintendent.

There were this year 249 school districts in New Hampshire. 133 spent less per $1000 of equalized valuation for public education and 115 spent more. The amounts range from $3.04 in Livermore to $25.93 in Bartlett Special. We spent $10.48, divided as follows: $5.76 for elementary schools, $3.58 for High Schools, and 84 cents for current expenses. 36 paid more per valuation for high schools, the figures running from 8 cents in Tuftonboro to $10.61 in West Lebanon. 169 of the 249 pay at a higher rate than we do for their elementary schools, one other pays the same amount, and only 78 pay less. Elementary education costs more per valuation in two thirds of New Hampshire's districts than it does in Antrim. What has been said about the cost has been reckoned on our supposed ability to pay, that is, upon our valuation. Now let us see what it has cost according to our enrollment. There are 84 high schools in the state, 55 of them cost more per pupil and only 28 cost less than ours. Some feel that because our high school is small it must necessarily be an unusually expensive high school. Such does not appear to be the case. Here are the two extremes compared with Antrim. The High School costs per pupil in Portsmouth is $86.92, Antrim $146.18, Bethlehem $401.64. The cost of our elementary schools was $69.16 per pupil. 67 districts pay more and only 15 paid less, varying from $44.18 to $270.68.

It should be interesting to compare our salaries with the average for the State.

	State Average	Antrim's Amount
Supt's salary	$3564.20	Part of $3400
Headmaster's salary	2031.20	2000
High School Women	1412.35	1200
Elementary Women	1006.65	833.33

In each case we pay less than the State average, although in the case of the High School headmaster that has been remedied since the close of the year. We are not content with less than the average teacher. Is it fair to pay less than the average salary? We get better than the average results. This is shown by the results of tests given each year by the State Department of Education to all the high schools in the State. This year the tests were given in Geography and Spelling. In Geography our high school stood above the state's median, and above the standard. In spelling our grades 9, 10 and 12 stood above the state's median and above the standard, and only grade 11 stood below the median.

The medical examination was given with its usual care, and the music, especially in the rural schools, has made decided improvement under Mrs. Putnam's direction.

The D. A. R. gave their annual prizes to the following pupils:

Seventh Grade

First prize: Ruth Felker. Second prize: Ruth Dunlap.

Eighth Grade

First prize: Margaret Pratt. Second prize: Robert Caughey.

HEALTH OFFICER'S REPORT

To the Selectmen of Antrim,

Gentlemen:

At the close of another year I am glad to report that, although it has been 12 months of considerable sickness, it has been a sickness not of serious nature excepting the cases of Diphtheria which were carefully quarantined and the contagion stopped.

The following cases in town have been quarantined:

3 of Diphtheria, 10 of Whooping-Cough and 62 cases of Mumps.

Much good has been accomplished by causing the removal of unsanitary conditions and the stopping of public ice supply from slaughter-house pond.

I trust that the coming year will give Antrim another lift toward the goal we have been trying to reach: "A thoroughly healthy and sanitary town."

Respectfully,

C. W. PRENTISS,
Health Officer.

Dec. 20, 1927

My dear Mr. Prentiss:

The following is a report of the work done in your town by the State Board of Health, division Maternity,

Infancy and Child Hygiene, with the cooperation of the various woman's organizations of the town and townspeople.

A Child Health Conference was held with thirty-five children examined; twenty children were found with defects: One correction was made, six placed under treatment, two demonstrations of infant care given.

A Schick test was held for the children who received toxin anti-toxin treatment last winter, and ninety-seven (97) children received the test. Eighty-two of the children were found to be immune to diphtheria at that time.
